# SSIA

In 1986 a small group of Swedish Ots, PTs and psychologists with a common interest of SI gathered and started the association.

Now about 40 members.

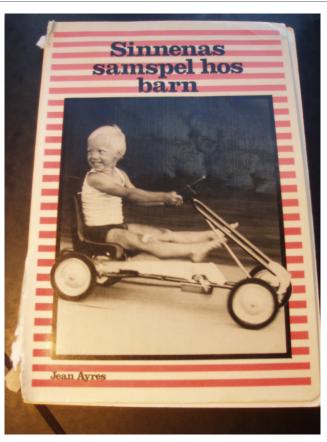

## The aim of SSIA is

 to gather and share knowledge about the Sensory Integration theory.

 to work to ensure that
SI can be applied to a greater extent in
Sweden, concerning assessment and intervention.

# Highlights in the history of SSIA

The 1980s and 90s SSIA was very active with presenters like

- o Lorna King and Anita Bundy form USA
- o Inge Flehmig and Ulla Kiesling from Germany.
- o Jennifer Warrent from Australia

In 1995 a longer SI-course with Anita Bundy was held in collaboration with Linköping University.

## More recent events

In 2012 we had the first
SPM course in Sweden in
collaboration with the
Swedish OT association.

 Course leaders that first time were Ann-Christine
Hyatt och Evelyn Andersson.

After that, it has been
Gunilla Leinsköld and
Kristina Orban.

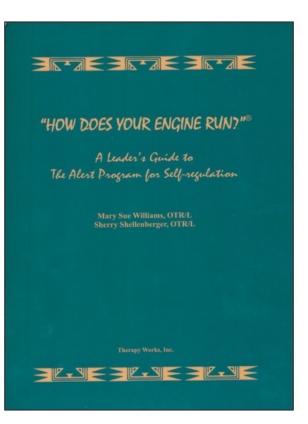

# **The Alert Program**

In 2017 SSIA arranged the Alert Program online course with Mary Sue Williams and Sherry Shellenberger.

24 OT's and one Psychologist participated.

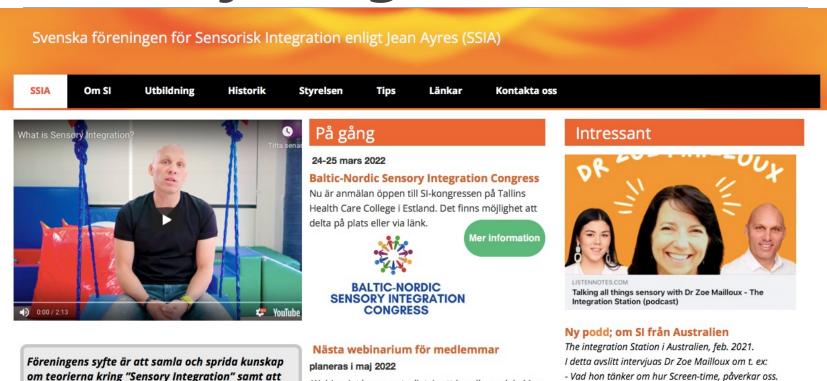

# Webinars

- School-based OT, both in Sweden, USA and Austria.
- Pilot study with Alert Program
- Fine motor activities
- o Test of Playfulness

# SSIA.se or sensoryintegration.se

om teorierna kring "Sensory Integration" samt att verka för att de i större utsträckning kan tillämpas vid bedömning och behandling av barn och vuxna

### 29-30 september 2022

med sensoriska integrationsproblem i Sverige.

Ayres Sensory Integration

20:20 VISION Arbetsterapi för barn med fokus på SPM och sensorisk bearbetning

I samarbete med Sveriges Arbetsterapeuter i Nacka

Läs mer på vår tipssida!

- Varför och hur det kom sig att man började utveckla

- Hur hon efter en bedömning förklarar barnets SI-

problem för dem själva och föräldrarna.
